WHY CHOOSE

**A WOOD FLOOR
FROM KÄHRS**

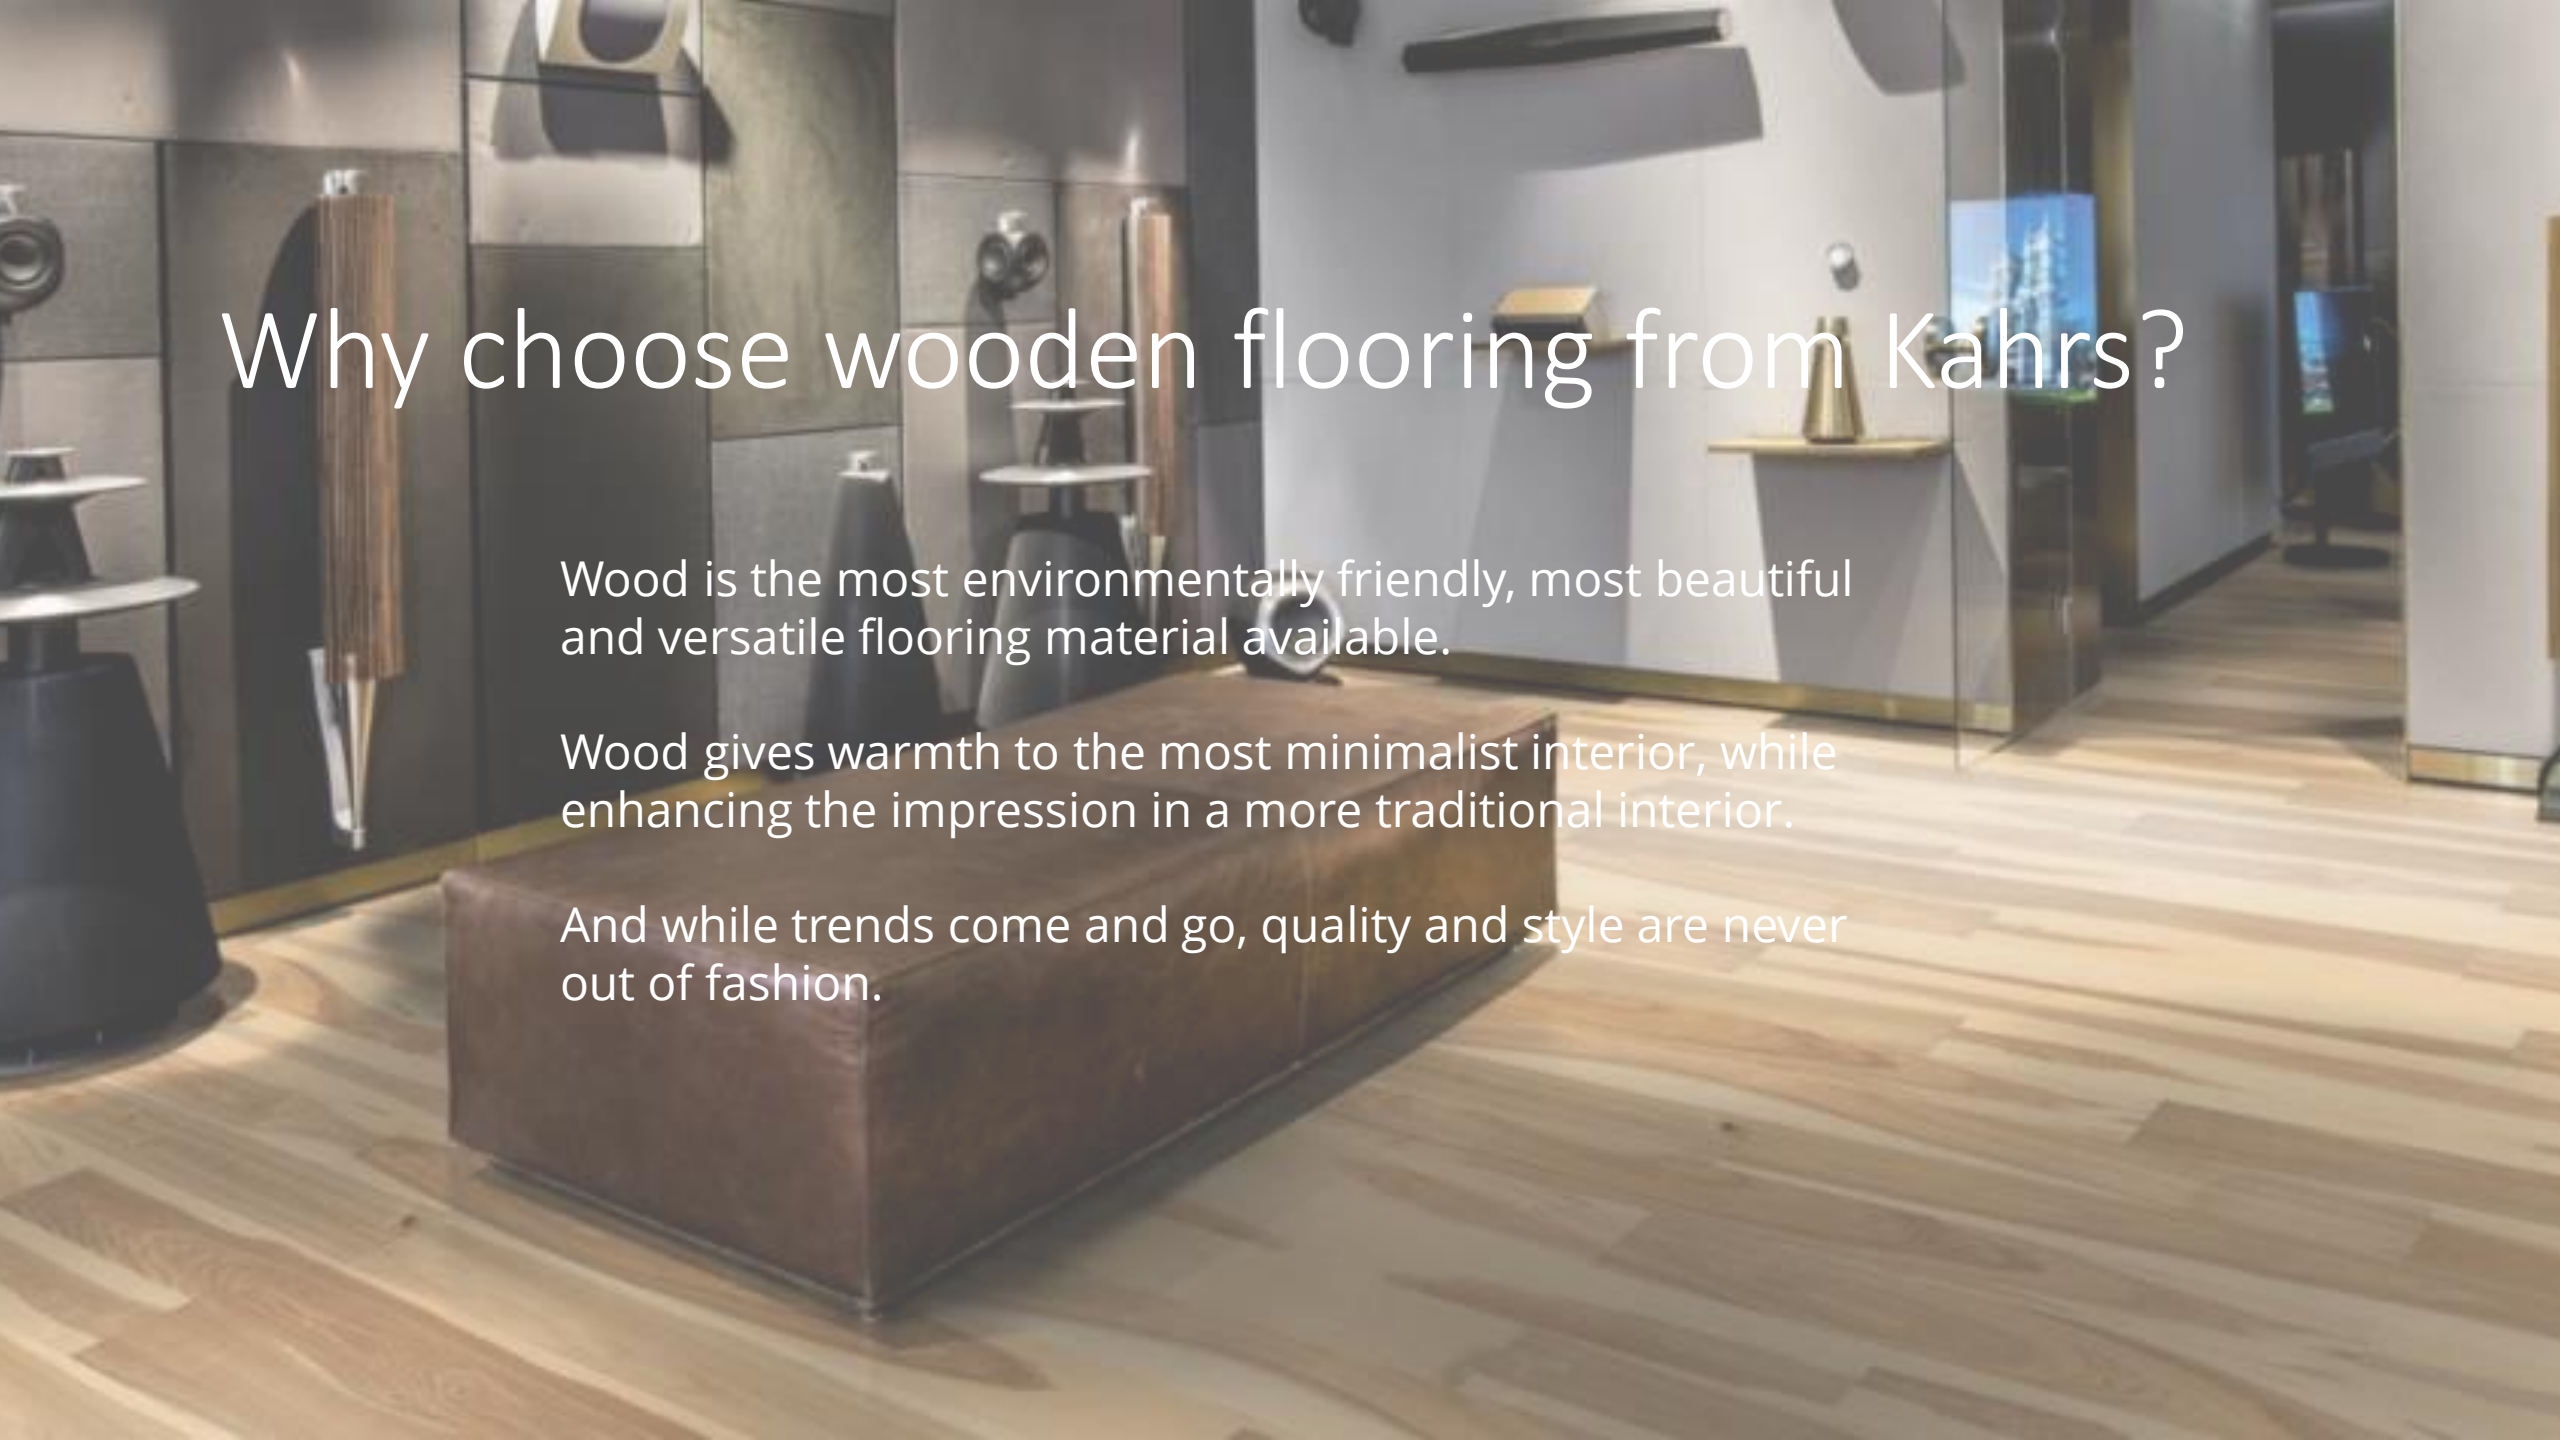

The background of the lower half of the image is a landscape photograph. It shows a misty or foggy morning scene with rolling hills. Two large, dark trees are silhouetted against the light sky on the right side of the frame. The overall color palette is muted, with greys, browns, and soft blues.

Why choose wooden flooring from Kahrs?

Wood is the most environmentally friendly, most beautiful and versatile flooring material available.

Wood gives warmth to the most minimalist interior, while enhancing the impression in a more traditional interior.

And while trends come and go, quality and style are never out of fashion.
